Dear Prof. Dr. Anatoly Zaitsev,

The International Maglev Board (IMB) would like to express its full support for the journal 'Transportation Systems and Technology'.

The IMB intends to raise awareness of your 'Transportation Systems and Technology' journal worldwide.

The IMB considers the journal 'Transportation Systems and Technology' as an important and very focused information medium to improve the knowledge and understanding of Maglev technologies in Russian-speaking countries and far beyond.

To underline the cooperation, the IMB hereby also gives its consent to the use of the IMB logo on the Web page 'transsys.ru' in this sense.

We look forward to an even closer cooperation.

Yours sincerely,

Johannes Kluehspies

Prof. Dr. habil. Dr. h.c.  
Johannes Kluehspies

President
